

# Education with vision for future

**D**MI Loyola located at about 5kms from Poonamallee on the Chennai Bangalore highway, is a Catholic Christian minority institution, approved by AICTE New Delhi and affiliated to Anna University, Chennai. The college founded by Rev Fr Dr J.E.Arulraj is run by the sisters of the society of daughters of mary Immaculate & collaborators.

The Institution imparts technical education based on a vision of the future. With the conviction that the emergence of engineering systems of grow-

ing complexities demands highly creative and responsive engineers, Loyola has made Industry-academia interaction an important step through which students can gather information and improve their skills, so that they are industry ready.

Loyola partners with industries to improve the relevance and quality of education especially its practical component. The IBM AI & IOT Research Lab has enabled students to do several IOT based projects. A polyhouse automation and control using IOT for better agri-

cultural yield is the latest development using this laboratory. Several centers of excellence function in this campus like CISCONetworking, GIS, VM WARE & Industrial Automation through which students develop their skills beyond the university curriculum. Opportunities are provided to undergo Industrial exposure in other countries like Singapore.

As a member of the open power foundation, USA the college is frequented by industrial experts from United States. IBM Whats on WATSON train-

ing programme is hosted year after year. The college is an active resource centre of National cyber safety and security standards.

These trainings culminate in effective placements. Value addition certifications are also provided. Activities are designed such that industry-academia interaction is used for effective learning process and skill development in students. The Entrepreneur development cell of this institution is one of the fifty spoke cells of the affiliating university's EDP cell. Apart from academics the college encourages various co-curricular activities. The Leo club of Loyola recently won the outstanding club award.

The Institution concentrates on the over-all development of the student so that Students by the time they graduate from courses are trained in essential activities like team formation, division of labour, peer learning, cooperative learning & managing the work concurrently in team against the deadlines to be met so that they excel in the Industry of their choice.
